

## OCCUPATIONAL HEALTH AND SAFETY POLICY

Drewmark Building Services limited consider the Occupational Health & Safety of its employees, contractors and members of the public who enter our sites, and come into contact with our activities to be of paramount importance.

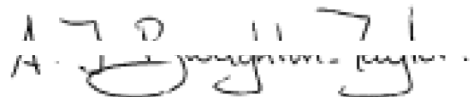

The company shall take account of all relevant Occupational Health & Safety legislation under which the business functions operate, and shall maintain high standards of best practice throughout the company.

The Directors shall ensure that all personnel at every level of the company understand their part in the successful management of Occupational Health & Safety. Managers and Supervisors will provide clear leadership, promoting Occupational Health & Safety with equal priority to that of other management activities.

All employees of the company shall conduct themselves in a safe and controlled manner giving due consideration for the safety of others. The company will provide its employees and contractors with the necessary induction, training and supervision required to achieve the high standards required.

Our company Occupational Health & Safety system is a constantly developing system with clear objectives, and seeks to aim for continued improvement.

The company Occupational Health & Safety system is authorised by the Managing Director and adherence to it is **MANDATORY** at every level.

Signed:  Managing Director
